

## **Lessons learned from policy support for academic-industry collaborative startups in Finland**

Reddal Insights — 23 July 2014

Per Stenius

We review lessons learned from the development of Finland's venture capital and private equity ecosystem development, and what insights this could provide to South Korean government.

Per Stenius was invited as a speaker to the National Budget Office (NABO) and Korea Development Institute (KDI) International Forum for Creative Economy. Please see the presented materials [here](#).

NABO•KDI International Forum aims to discuss fostering the creative economy by boosting venture and startups. At the forum jointly hosted by the National Assembly Budget Office and the Korea Development Institute, internal and external experts are invited to lead each session.
